

Francois Paquet is EU Affairs Manager at COGEN Europe. He represents the interests of the cogeneration sector towards EU Policymakers to shape better EU policies for the wider use of cogeneration in Europe.

François has seven years of experience in EU Public Affairs, EU association management and industry interest representation towards EU institutions. He currently works on EU energy and climate change policies. Prior to joining COGEN Europe, he also represented industry's interests on issues including sustainability, waste management and prevention, recycling, resource efficiency and circular economy. François holds a MA degree in Business from the Louvain School of Management (Belgium) and an Executive MA degree in Public Affairs and Advocacy (European Institute for Advance Studies in Lobbying & Strasbourg University).
